

**Village of Bridgeview – 71st STREET PEDESTRIAN SAFETY FENCE at Toyota Park**

**Addendum #1 of 1**

DATE: April 18, 2014

Issued by:

RGC Design  
Robert Collins – Project Landscape Architect  
Phone: 815/556-9233  
Email: [bob@rgcdesign.com](mailto:bob@rgcdesign.com)

To: PROSPECTIVE VENDORS

Subject: Clarification to the RFP Specification

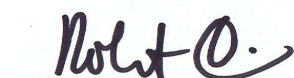

This addendum forms a part of the RFP and contract documents and modifies the original documents. **Acknowledgement of receipt of this addendum must be sent via email and also noted where designated in the RFP Specifications.** FAILURE TO DO SO MAY SUBJECT VENDOR TO DISQUALIFICATION.

\*\*\*\*\*

We have been informed that the existing fence along Harlem Avenue may actually be an Ameristar Fence rather than a Jerith Fence. The specification we included in the RFP was supplied to RGC Design by the project architect for the Harlem Avenue project and therefore was understood to reflect the current fencing. However, they may have selected an alternate. Therefore, when submitting your proposals, you may include two (2) separate proposals on their own individual Proposal Forms (simply make a copy of the Proposal Form & note which one is which): One that is per (or similar to) the specification, and one that is per (or similar to) the fencing along Harlem Avenue. You may of course submit one solution with your specifications that you believe is the best use for the site if you prefer, since this is a performance specification and the goal is to get the best solution for the Village of Bridgeview.

\*\*\*\*\*

Please include this Addendum with your proposal, as well as acknowledging it in the designated location in the RFP Specification Document. Thank you,

Bob Collins – RGC Design
